Come celebrate and reflect on the journey of parenting and the deep bond between caregivers and children through this special parent and child program.

Each week, you and your child will connect in a warm, supportive space through playful activities and meaningful moments. Strengthen your bond, share joyful experiences, and build community with other families on the parenting journey. Family specialists will be available to offer support, share helpful strategies, and provide a caring, listening ear.

A light lunch will be served after each session.
